
SUMMARY

With over 3 years of experience as a Front-end developer, I'm passionate about creating clean and accessible designs. I'm well-versed in pair programming and remote work. I'm dedicated to creating user-focused applications using various technologies, including JavaScript, Typescript, Ruby, Ruby on Rails, React, and NextJS. With a proven ability to ramp up quickly and efficiently, I'm committed to delivering high-quality results.

SKILLS

Front-End: JavaScript, TypeScript, React, Redux, Webpack, Bootstrap, Tailwind, Sass, HTML5, CSS3.

Back-End: Ruby on Rails, PostgreSQL, Nodejs, Expressjs, Next-Auth, Prisma, JSON Web Token, MySQL/SQL

Tools & Methods: Unit Testing/ JEST, Test Driven Development, Analytical thinking skills, Git, GitHub, Gatsby, Heroku, Figma, Photoshop, Illustrator, Mobile/Responsive Development, Chrome Dev Tools, Googling.

Professional: Remote pair programming, Mentoring, Cross-functional Team Leadership, Collaborative Problem Solving, Communication, Code review.

EXPERIENCE

MICROVERSE

California, USA

Code Reviewer(Part-time)

September 2022 – Present

- Utilized Gitpod's automated development environments to give thorough code reviews quickly, cutting the review waiting time by 11%.
- Run students' codes (a daily average of 8) through a series of tests to ensure it's maintainable, free of bugs and scalable.
- Exposed to different coding styles from reviewing 10+ developers a week, learning at least two coding techniques a week and staying current with the latest industry trends and best practices.

MICROVERSE

California, USA

Student Mentor

Apr 2022 – November 2022

- Mentored four junior web developers in pairs of two on their journey of making a career shift as self-taught coders in non-traditional computer science schooling.
- Guided retaining cause to sustain student longevity in the program and to stand out from the massive pool of Bootcamp grads.
- Proposed revisions to code organization to improve code quality and overall performance by at least 20%.

610MUSIC

Accra, Ghana

Front-End Developer (Contract)

Apr 2022 – August 2022

- Revamped old WordPress website and built it with modern tools and libraries like GatsbyJS and GraphQL.
- Boosted the speed of the official website by over 90% enhancing user experience.
- Conducted thorough product testing and quality assurance measures, ensuring that the developed solutions met and exceeded client expectations in terms of functionality, usability, and performance.

EDUCATION

MICROVERSE

Apr 2022 – January 2023

Remote Full-stack Web Development Program, Full-Time

- Spent 8 hours a day mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

SOFTWARE ENGINEERING

- Mastered various programming languages such as C#, PHP, and C++, along with in-depth knowledge of data structures and algorithms
- Collaborated effectively with team members on various projects, demonstrating strong teamwork skills and presenting the projects successfully to achieve high scores.
